

RELATIONS WITH PARENT ORGANIZATIONS

Code **KBE** Issued **6/04**

Purpose: To establish the basic structure for board and center relations with parent organizations.

The board looks upon support groups as an integral part of the center. These groups can help the center promote an effective educational program. The board encourages the participation of parents' organizations and booster organizations.

These groups will not have administrative authority in connection with the operation of the center. The board has final authority over all phases of the center and money raised for the center. Equipment donated to the center becomes the property of the center.

The board encourages administration, staff and employees to be supportive and accommodating to the activities of these groups. Each group will submit a statement of purpose and regulations governing the group's involvement to the director for review and approval by the board.

These support groups need administrative approval for any events, programs or operations that involve the following.

- participation of students
- operation of a center service
- charges to students
- solicitation of students
- communications sent home with all students in the center

The board directs the administration to establish regulations and procedures that will provide for an orderly and systematic operation of such groups. The board further directs the administration periodically to evaluate the productivity and impact of the support groups.

This policy governs all groups currently in existence in the center as well as those formed after the date of adoption of this policy.

Adopted 6/8/04
